This year's "need" is technology, specifically "Ceiling Mounted Projectors." These projectors will enhance the current use of digital teaching aids by enabling the clear display of diagrams, text, photos, or videos, based on the subject being taught. Audio speakers will also be included to enhance video presentations. This upgrade will engage students from every part of the room. Our goal is to upgrade every classroom, and the work will include wiring, speakers, screens, and the ceiling mounted projectors. Please give what you can to this worthy improvement.

#211: **Trek Belleville**

Value: \$650.00 Min. Bid: \$450

Trek Belleville: From tip to tail, the Belleville WSD is green. Trek goes above and beyond; the chromoly steel frame, the low-VOC powdercoated paint, even the tires are made from recycled materials and rubber that is sourced from certified sustainable plantations. The ride is 1st-class, not only does the Belleville have the classic steel feel, but its upright position and casual geometry make it comfortable. The 3-speed internal gears and comfy saddle doesn't hurt, either. Its style is what we like to call "utilitarian with flair," it's got front/rear racks and fenders, as well as lights that eliminate the need for batteries. Of course, like all Treks, it's built tough to last years and years of hard commuting and riding.
